

Carbolime+TE

20% Calcium+TE <500 PPM (Cu,B,Fe,Na)

Benefits

Reduce soil acidity
Improve Fertiliser Efficiency
Nutrient Availability
Accelerate Micro-biological activity
Increase Calcium Levels and deficiencies
Reduces Aluminum & other metal toxicity
Increase release of nutrient elements and organic matter from soil

Rate Of Application

Dilute 10 - 40 L/ha with 150 litres of water. Depends on soil pH.

- Very Poor Soil 30 - 40 L/ha
- Poor Soil: 20 - 30 L/ha
- Average Soil: 10 - 20 L/ha
- Ground Application 1: 5 Minimum
- Aerial Application: 1:2

Directions For Use

After application, wash the solution off from spraying system. Agitation can be accomplished with a slow speed mechanical agitator, pump re-circulation, air, etc. Slurry is relatively easy to keep in suspension. It is also relatively easy to re-agitate if the material does settle. In more than 100L / 200L open lid barrel can be mixed with normal garden rake by agitating up and down.

Compatibility: May be tank mixed with most commonly used agrochemicals.

Withholding Period: Nil

Sprayable Fast Action

BSL's Liquidlime

Controls pH & Fixes Soil Acidity in 14 days

Increases microbial activity

Better soil structure (air and water flow)

Accelerates soil's decay system

Apple Cider Vinegar

Benefits

- **Improves digestive system**
 - **Assists in reducing of somatic cell counts**
 - **Improves immune system**
- Relieving in arthritis**

VITAMINS

Vitamin C, Vitamin E, Vitamin A, Vitamin B1, Vitamin B2, Vitamin B6, Provitamin beta-carotene, Vitamin P.

INTERNAL BENEFITS:

Rich in enzymes & potassium, Natural antibiotic germ fighter, Fights E Coli and other bacteria, Helps control and normalize weight, Helps improve digestion assimilation, Helps relieve arthritis stiffness, Helps relieve dry sore throats, Helps remove body, sludge toxins

EXTERNAL BENEFITS

Helps maintain healthy skin, Helps promote youthful, healthy bodies, Soothes pain of sunburn, Helps prevent dandruff, itching scalp, baldness Soothes tight aching joints, sore muscles

Dosage

10 mls BSL's Apple Cider Vinegar per 100 kg Bodyweight, daily or until condition improves.

Application

Can be mixed into drinking water, sprinkled on supplementary feed or drenched.

Direct Drenching (50:50):

Large Animals: 100mls mix with 100mls of water, daily until condition improves.

Small Animals: 50mls mix with 50mls of water, daily until condition improves.

Kelp Meal

Kelp Meal dried seaweed meal is used a supplement or part of animal feed programs.

It can be used for all types of animals from dairy and beef cows, sheep, pigs, poultry and horses. Kelp Meal seaweed meal can increase general animal health as well as assisting in providing the following benefits:

Dairy and Beef Cows:

Assist in more efficient feed utilization

Increased regularity of heat cycles

Improved conception rate

Fewer problems caused by dietary deficiencies such as mastitis, retained placenta, milk fever, abortions and infertility.

Feed Rates

Dairy and beef cows' 100 grams day or 1 - 2.5% of total diet.

Dairy Cattle:

Assist in increasing milk yield and butterfat content in milk.

Increased iodine and vitamin A content in milk

Assists in minimizing production losses during stress periods and prolonged lactation periods.

Feed rates

Dairy Cattle/Beef cattle 100 grams per day or 1 - 2.5% of total diet.

Sheep:

Assists in increasing birth rate.

Easier lambing

Better quality wool.

Feed rates

Sheep 100 grams day or 1 - 2.5% of total diet.

Pigs:

Assists in rapid gains for earlier marketing

Increased loin length and size

Larger loin eyes

Reduced back fat

Reduced internal parasites

Increased litter size

Feed rates

Piglet 10 - 20 grams day

Pig 20 - 50 grams day or 1 - 2.5% of total diet

Poultry:

Assist in increased hatchability of eggs

Reduced blood spots

Increased iodine content of eggs

Increased yolk pigmentation

More uniform shell texture with less breakage

Increased laying period in older hens.

Feed Rates

Poultry Hen / Rooster 0.8% - 1.2% of total feed

Horses:

Is an excellent source of iodine

Assists in reducing or eliminating breeding problems

Increases vitality and stamina

Reduces nervousness

Assists in preventing cracked hooves

Assists in producing a healthier coat and brighter eyes

Feed rates

Small ponies 30 - 50 grams/day

Large ponies/small horses 60 - 90 grams/day

Breeding mares 120 - 140 grams/day

Stallions 120 - 140 grams/day

Working/Sports horses 100 -120 grams/day

TOP SHOW

Natural Seaweed Extract
Formulated with Amino Acid
Suitable for Horse/Pony's
Pasture / Forage / any fodder Crops

BENEFITS

- **Crop stress tolerance**
- **Marketable yield and quality**
- **Crop sizing and uniformity**
- **Firmness and color**
- **Shelf life and storage quality**
- **Resistance to select insects and diseases**

Soil / Ground Application: Apply 10L - 20 L per hectare mix with and minimum 100L water.

Aerial Application:
 Ratio 1:1

Compatibility: May be tank mixed with most commonly used agro-chemicals. Do jug test first.

Withholding Period: ZERO days.

Nutrient	Analysis
Organic Matter	13 - 16%
Total Nitrogen(N)	0.3 - 0.6%
Available Phosphoric Acid (P2O5)	0.3 -1.2%
Soluble Potash(k2O)	4 -7%
Sulphur (S)	0.3 – 0.6%
Magnesium (Mg)	0.05 – 0.1%
Calcium (Ca)	0.05 – 0.1%
Sodium (Na)	1.0 – 1.5%
Iron (Fe)	30 – 80 ppm
Copper (Cu)	1 – 5 ppm
Zinc (Zn)	10 – 25ppm
Manganese (Mn)	1 – 10 ppm
Boron (B)	20 – 50 ppm
Carbohydrates	Alginic Acid, Mannitol, Laminaria
Naturally Occurring Growth Promoters	Glutamic Acid, Aspartic Acid, Arginine, Alanine, Glycine, Leucine, Lysine, Valine, Serine, Phenylalanine, Isoleucine, Histidine, Proline, Threonine, Tryptosine, Methionine, Cystine
Active Ingredients	20 - 25 % including Seaweed
Others	To 100%

Equ Extra Mix

Liquid Fertiliser

Special Mix of liquid fertiliser to suit horse / pony's pasture or any forage and fodder crops with 5% Potassium, 2% Sulfur plus Trace Elements ppm (iodine, selenium, sodium, boron, iron, copper and magnesium)
 This product can be mixed with BSL's
TOP SHOW

Benefits

- **Improve soil structure**
- **Anti-drought**
- **Prevent and cure the plant disease**
- **Stimulate the microcosmic biological activity**
- **Slow release fertilizer**
- **Enhance absorption of available nutrition**
- **Improve the fertilizer and pesticides**
- **Promote residue decomposition**
- **Enhance plant germination and growth**

Soil / Ground Application:

Apply 10L - 20 L per hectare mix with minimum 100L water.

Aerial Application:

Ratio 1:1

Compatibility: May be tank mixed with most commonly used agrochemicals. Do Jar Test First.

Withholding Period: 5 days / 5 mm rain
