Magsul Lime +TE Powder

Ca 20% - S4% - Mg 3% w/v+ TE
Cu, Na, Fe, B >500ppm

Water base
sprayable
liquid lime in
powder form.

High Quality
High pH
No Dusty Mess
Easy To Apply
Extremely Fine Grind

Benefits

- Carrier of Phosphorus in the plant
- Sugar synthesis
- Starch translocation
- Plant oil and fat formation
- Nutrient uptake control
- Increase Iron utilization
- A structural component of protein and peptides
- Active in the conversion of inorganic N into protein
- A catalyst in chlorophyll production
- Promotes nodule formation in legumes

Magsul Lime is a super high concentrated Agricultural Lime WITH **TRACE ELEMENTS** (TE) that is easy to use and is ideal when a quick soil pH change is needed for agricultural, pasture, turf, erosion control and land reclamation applications.

Application Rate:

Top Up / Maintenance: 5Kg/ha (by duster, manual—wear dust mask and goggles)

Average Soil : 10 - 15kg/ha (by duster, manual—wear dust mask and goggles)

Poor Soil: 15 - 20 kg / ha (by duster, manual—wear dust mask and goggles)

Inhalation: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Call a physician immediately.

Ingestion: DO NOT INDUCE VOMITING. Give large quantities of water. Never give anything by mouth to an unconscious person. Call a physician immediately.

Skin Contact: In case of contact, wipe off excess material from skin then immediately flush skin with plenty of water for at least 15 minutes. Remove contaminated clothing and shoes. Wash clothing before reuse. Call a physician immediately.

Eye Contact: Immediately flush eyes with gentle but large stream of water for at least 15 minutes, lifting lower and upper eyelids occasionally. Call a physician immediately.
