

# pH Adjuster

Sprayable Fast Action  
Controls pH & Fixes Soil Acidity

## Analysis:

Calcium (Ca) 8.1% w/v

For use in certified organic production as a fertilizer for foliar, fertigation and soil applications to supplement calcium.

## Directions for Use (Use only as Directed):

- Avoid foliar application in poor drying conditions such as very high humidity, heavy dew set or continually rainy weather.
- Do not foliar apply when ambient temperatures are expected to exceed 85°F before application completely dries on foliage.
- Care should be exercised when applying to chlorophobic plants.

## APPLICATION

Use any spraying equipments or water can.

Soil Application (Pre Planting); 30mls per litre of water, spray with course nozzle or use water can.

This product is compatible with wide range of commonly used pesticides. DO jar test first.

**Compatibility:** can be mixed with wide range of commonly used pesticides. Please do jar test first
