

KEEP OUT OF REACH OF CHILDREN

SANITOZ

DESCRIPTION : "SANITOZ" is a highly effective, broad spectrum disinfectant for control of fungi, mould & bacteria particularly within food processing areas.

Method of Use: 1. Clean the soiled surface thoroughly and rinse with water.
2. Apply "SANITOZ" by immersion, spray, or hand scrubbing, preferably with hot water. Refer to technical data for guidelines. Leave for 10 minutes to allow disinfecting action.
3. Rinse off with potable water.
4. May be used in "no rinse" situation.

Application :

Disinfecting food processing, serving, eating, dispensing equipment – 2 mls "SANITOZ" per litre of water.

Disinfecting of hard, non porous surfaces 5 mls "SANITOZ" per liter of water.

Disinfecting porous surfaces and mould control 10 mls "SANITOZ" per litre of water.

No rinse sanitising in the fishing industry use at a dilution of 2 mls per litre of water to obtain 200
